## Welcome

# **MESSAGE FROM THE CHAIR**

Our huge thanks to the more than 21,000 doctors in training who responded to the 2020 Medical Training Survey (MTS). We now have responses from more than half of Australia's doctors in training, and a solid evidence base for continuous improvement.

The MTS data are rich and once again, provide fascinating insights. In broad terms, 2020 MTS results are consistent with 2019 MTS data. There's a lot going well in medical training in Australia and we're doing a lot of things right to keep producing doctors who can provide patients with high quality care.

This year, 87 per cent of doctors in training rated the quality of their clinical supervision and training very highly, 75 per cent said their orientation was good or excellent, and 81 per cent would recommend their current training position to other doctors.

Stronger response rates this year have given us robust national data about the experience of prevocational and unaccredited trainees. The results show that these doctors value and rate highly the training they receive – but these training opportunities are limited. Better training for this important group of doctors will lead to better care and safety of patients in Australia and is an important opportunity for action.

About 66 per cent of trainees work more than 40 hours per week, but many value the extra training opportunities this provides.

We are delighted to have heard from so many international medical graduates (IMGs) with limited or provisional registration (49 per cent), who were very satisfied with their training experience.

We responded to stakeholder feedback and updated MTS questions to get a clearer picture of the culture of medicine. Disappointingly, the 2020 MTS results confirm that there is a lot still to be done both in medicine and the wider health sector. Again this year, 34 per cent of doctors in training reported they had experienced and/or witnessed bullying, harassment or discrimination, consistent with 33 per cent in 2019.

Nearly half our interns (47 per cent) experienced and/or witnessed bullying, harassment or discrimination, followed by 39 per cent of prevocational and unaccredited trainees, 36 per cent per cent of specialist non-GP trainees, 23 per cent of IMGs and 21 per cent of specialist GP trainees.

The primary sources of the bullying, harassment and discrimination experienced by trainees was by consultants and specialists (51 per cent), nurses or midwives (36 per cent) and patients and/or patients' family/carers (34 per cent).

Importantly, 66 per cent of trainees said that they did not report the incident they experienced, and 78 per cent did not report the incident they witnessed.

For the future of our profession, we must all listen to what the thousands of trainees have told us. Collectively, we must prioritise the work needed to build a culture of respect, including by making it safe for them to speak up. We must keep our trainees safe. An urgent and shared commitment to this across medicine and the wider health sector will lead to safer patient care.

Questions in 2020 about the impact of COVID-19 on training drew interesting answers. Perhaps unsurprisingly, 80 per cent said the pandemic had impacted on their training. About one third of trainees overall (notably 37 per cent in Victoria) reported it having had a negative effect, nearly half said the impact on their training was mixed, and more than one third said it had led to innovative ways to learn.

Once again, we have deliberately presented the results of the MTS unadorned. As promised, we have prioritised confidentiality and results are only published when there were 10 or more responses.

You can access 2020 results in a series of static reports or with an online reporting tool, accessible from the MTS website at www.medicaltrainingsurvey.gov.au. You can use this tool to compare 2019 and 2020 results and see how your workplace, college or state compares with the national response.

The Board is grateful to everyone who worked with us to deliver and promote the 2020 MTS. Sincere thanks to all the members of our Steering Committee and Advisory Group, who shared their expertise and experience so openly. A very special thanks to the many doctors in training who have worked closely with us on the Medical Training Survey this year, whose insight, energy and commitment continues to reassure and inspire.

Dr Anne Tonkin Chair, Medical Board of Australia

# **Background**

#### **INTRODUCTION**

The Medical Training Survey (MTS) is a national, profession-wide survey of doctors in training in Australia. It is a confidential way to get national, comparative, profession-wide data to strengthen medical training in Australia. The MTS is conducted annually with doctors in training, with 2020 representing the second wave of data collection.

The objectives of the survey are to:

promote better understanding of the quality of medical training in Australia

- identify how best to improve medical training in Australia, and
- identify and help deal with potential issues in medical training that could impact on patient safety, including environment and culture, unacceptable behaviours and poor supervision.

The Australian Health Practitioner Regulation Agency (Ahpra), on behalf of the Medical Board of Australia (the Board), commissioned EY Sweeney to undertake data collection and report on results for the MTS.

#### **METHOD**

Data collection for the MTS involved receiving responses to an online survey from n=21,851 doctors in training, with n=20,915 responses eligible for analysis (i.e. currently training in Australia) between 21 July and 8 October 2020.

38,275 doctors in training invited to the survey in 2020

**57.1%** responded to the survey

3,132
respondents are specialist GP trainees

Different versions of the survey were used to reflect the particular training environment of doctors who are at different stages in their training. Doctors in training answered questions about their experiences in their workplace. This could be the doctor in training's current setting, workplace, placement or rotation, or might be a previous setting, if they have only been practising or training in their current setting for less than two weeks.

For this report, results for specialist GP trainees are presented at an overall level. To explore results within specialist GP trainees further, please visit www.medicaltrainingsurvey.gov.au/results.

#### INTERPRETING THIS REPORT

This report provides key results based on n=3,132 specialist GP trainees working in locations across Australia compared against national results (n=20,915) of all eligible doctors in training (i.e. currently training in Australia).

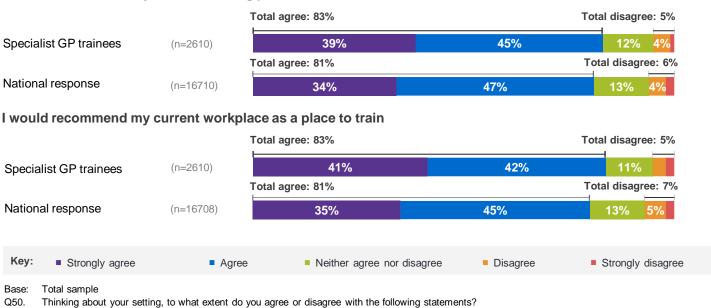

Bases exclude 'not applicable' responses or where the respondent skipped the question. Data in this report are unweighted. Labels on stacked charts are hidden for results 3% or less. Results with base sizes of less than n=10 are suppressed.

Data percentages displayed throughout the report are rounded to the nearest whole number. As such, if there is an expectation for a given chart or table that all percentages stated should add to 100% or nets should equal to the sum of their parts, this may not happen due to rounding.

Q14. Which specialist training program(s) are you doing?

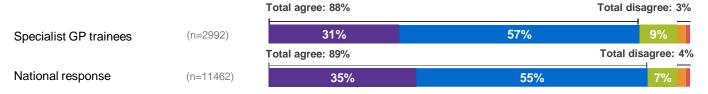

# **Training curriculum**

When completing the MTS, specialist GP trainees were asked to nominate up to two specialist training programs they were doing, and then asked to complete questions relating each of the specialist training programs they nominated.

This report shows aggregated results for the questions asked in relation to colleges they specified where at least one of the colleges is Australian College of Rural and Remote Medicine (ACRRM) and/or Royal Australian College of General Practitioners (RACGP).

#### TRAINING PROGRAM PROVIDED BY COLLEGE

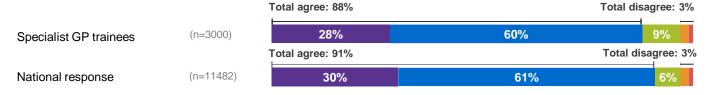

# The College training program is relevant to my development

# There are opportunities to meet the requirements of the training program in my current setting

## I understand what I need to do to meet my training program requirements

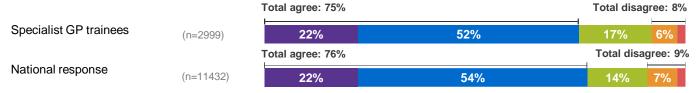

Base: Specialist trainees. National response comprised of specialist GP trainees and specialist non-GP trainees.

Q21. Thinking about your <College> training program, to what extent do you agree or disagree with each of the following statements?

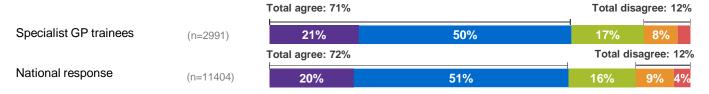

# **Training curriculum**

#### **COMMUNICATION WITH COLLEGE**

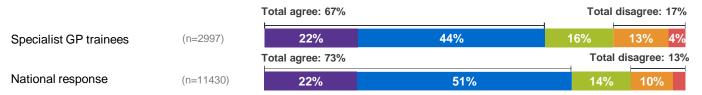

#### My College clearly communicates the requirements of my training program

# My College clearly communicates with me about changes to my training program and how they affect me

# I know who to contact at the College about my training program

Base: Specialist trainees. National response comprised of specialist GP trainees and specialist non-GP trainees.

Q22. Thinking about how <College> communicates with you about your training program, to what extent do you agree or disagree with the following statements?

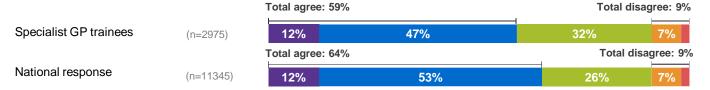

# **Training curriculum**

#### **ENGAGEMENT WITH COLLEGE**

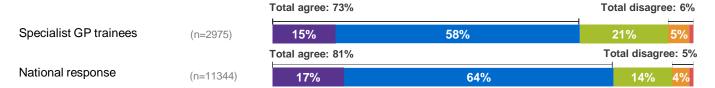

#### The College seeks my views on the training program

# I am represented by doctors in training on the College's training and/or education committees

# I am able to discuss the College training program with other doctors

# The College provides me with access to psychological and/or mental health support services

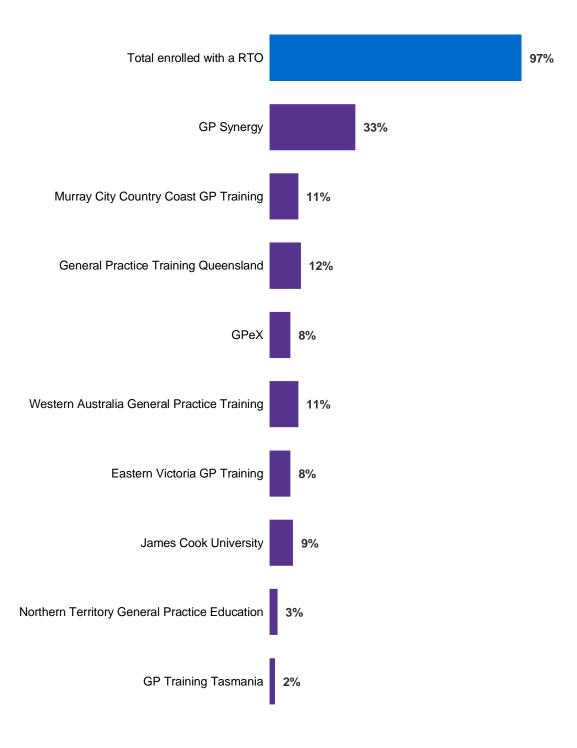

Specialist trainees. National response comprised of specialist GP trainees and specialist non-GP trainees. Base: Q25.

Thinking about how <COLLEGE> engages with you, to what extent do you agree or disagree with the following statements?

#### **REGIONAL TRAINING ORGANISATIONS**

Specialist GP trainees can be both enrolled in a Regional Training Organisation (RTO) as well as their specialist college (such as Australian College of Rural and Remote Medicine (ACRRM) and/or Royal Australian College of General Practitioners (RACGP)).

Base: Specialist GP trainees (Specialist GP trainees: 2020 n=2763), fields with 10 or more responses shown

Q17. If applicable, which Regional Training Organisation provides your GP training?

## TRAINING PROGRAM PROVIDED BY RTOS

# The RTO's education program meets the College/s requirements

## The RTO's education program is preparing me as a specialist

# The RTO's education program is advancing my knowledge

Base: Specialist GP trainees specifying an RTO

Q18. Thinking about your [Regional Training Organisation] training program, to what extent do you agree or disagree with each of the following statements?

#### **COMMUNICATION WITH RTO**

# The RTO clearly communicates the requirements of my training program

# The RTO clearly communicates with me about changes to my training program and how they affect me

## I know who to contact at the RTO about my education program

Base: Specialist GP trainees specifying an RTO Thinking about how your [Regional Training about how your ]]

Thinking about how your [Regional Training Organisation] communicates with you about your training program, to what extent do you agree or disagree with the following statements?

#### **ENGAGEMENT WITH RTO**

#### The RTO seeks my views on the structure and content of the education program

# I am represented (by doctors in training e.g. registrar liaison officer) on the RTO's training and/or education committees

# I am able to discuss the RTO's education program with other doctors

# The RTO provides me with access to psychological and/or mental health support services

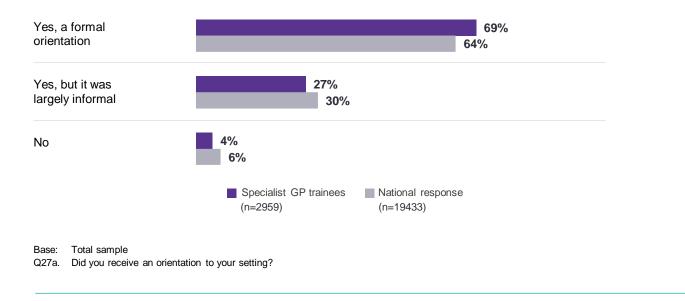

Base: Specialist GP trainees specifying an RTO

Q20. Thinking about how [Regional Training Organisation] engages with you, to what extent do you agree or disagree with the following statements?

# **Orientation**

#### DID YOU RECEIVE AN ORIENTATION TO YOUR SETTING?

Doctors in training were asked questions about their experiences in their workplace. This could be the doctor in training's current setting, workplace, placement or rotation, or might be a previous setting, if they had only been practising or training in their current setting for less than two weeks.

## HOW WOULD YOU RATE THE QUALITY OF YOUR ORIENTATION?

As shown in the chart above, 96% of specialist GP trainees had an orientation in their current setting (compared to the national response of 94%).

82% of specialist GP trainees rate the quality of the orientation as either 'excellent' or 'good', compared to the national response of 75%.

Q27b. How would you rate the quality of your orientation?

## **Assessment**

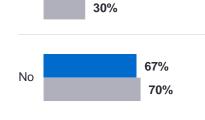

#### **COLLEGE EXAMS**

Base: Received results

Q23c. Did you pass the exam for <COLLEGE>?

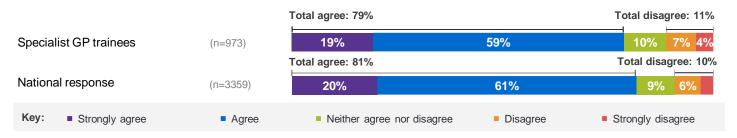

# The exam(s) always reflected the college training curriculum

#### The information the college provided about the exam(s) was always accurate and appropriate

## The exam(s) always ran smoothly on the day

Base: Specialist trainees. National response comprised of specialist GP trainees and specialist non-GP trainees.

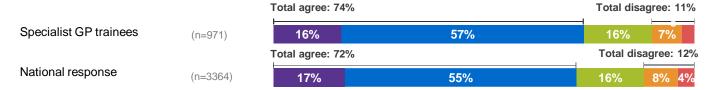

O24. Thinking about all your aCOULEGEs every(s) not just the most recent, to what extent do you agree or disc

Q24. Thinking about all your <COLLEGE> exam(s) not just the most recent, to what extent do you agree or disagree with the following statements?

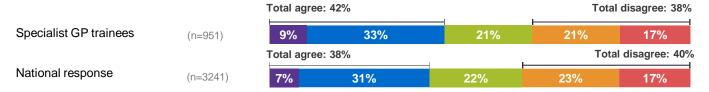

# **Assessment**

# **COLLEGE EXAMS (continued)**

#### The exam(s) were always conducted fairly

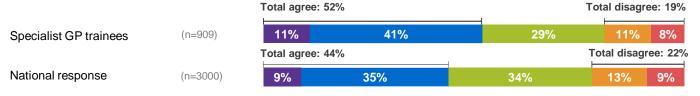

# I received useful feedback about my performance in the exam(s)

# The feedback is timely

#### I received support from my College when needed

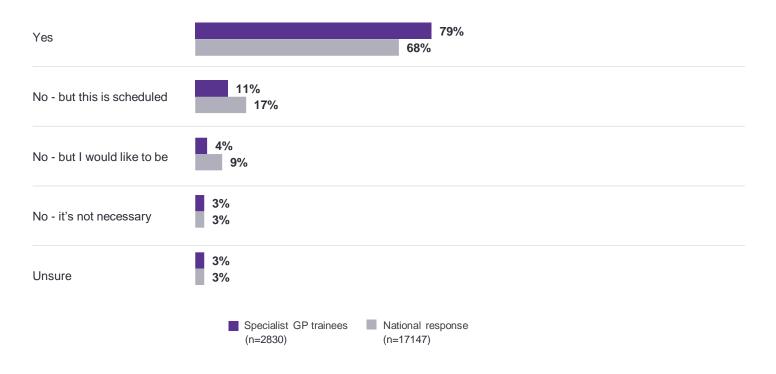

Base: Specialist trainees. National response comprised of specialist GP trainees and specialist non-GP trainees.

Q24. Thinking about all your <COLLEGE> exam(s) not just the most recent, to what extent do you agree or disagree with the following statements?

# **Assessment**

#### HAS YOUR PERFORMANCE BEEN ASSESSED IN YOUR SETTING?

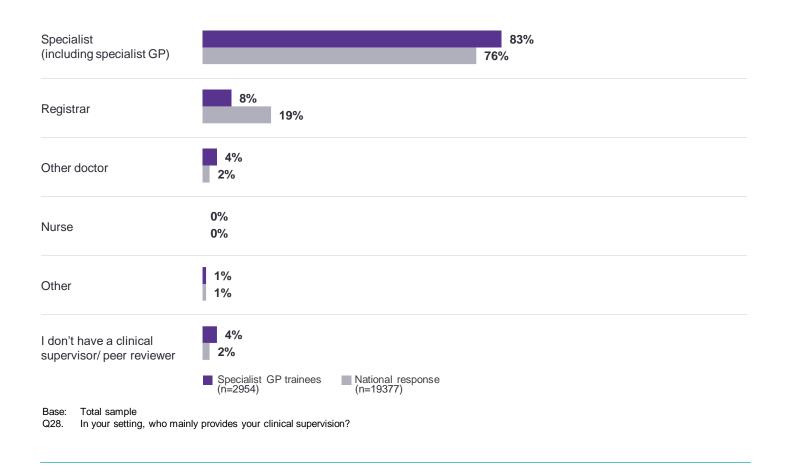

Base: Prevocational and unaccredited trainees, specialist trainees and IMGs.

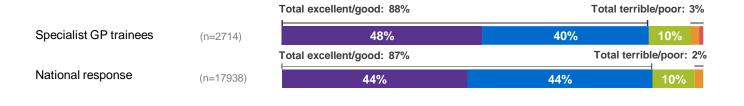

Q32. Has your performance been assessed in your setting?

# **Clinical supervision**

#### WHO MAINLY PROVIDES YOUR CLINICAL SUPERVISION?

# HOW WOULD YOU RATE THE QUALITY OF YOUR SUPERVISION?

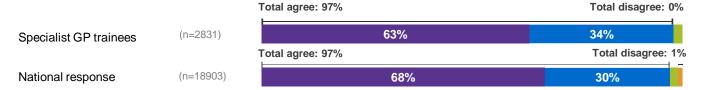

Base: Received supervision

Q31. For your setting, how would you rate the quality of your clinical supervision?

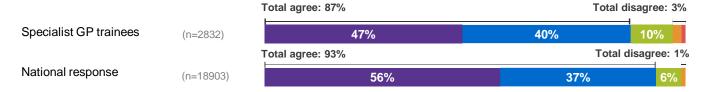

# **Clinical supervision**

# IF CLINICAL SUPERVISOR(S) ARE NOT AVAILABLE...

# I am able to contact other senior medical staff IN HOURS if I am concerned about a patient

# I am able to contact other senior medical staff AFTER HOURS if I am concerned about a patient

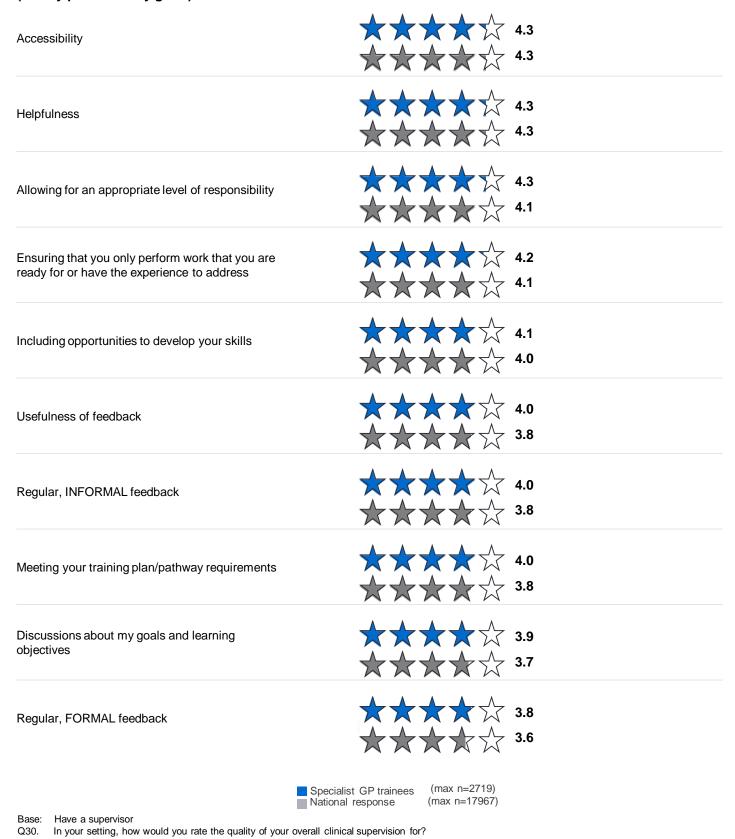

Base: Total sample

Q29. To what extent do you agree or disagree with the following statements?

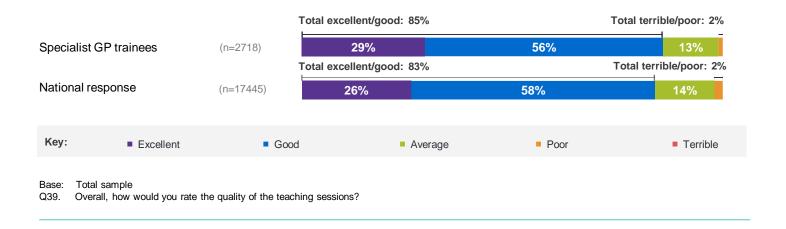

# **Clinical supervision**

#### HOW WOULD YOU RATE THE QUALITY OF YOUR OVERALL CLINICAL SUPERVISION FOR?

Average out of 5 (1=very poor - 5=very good)

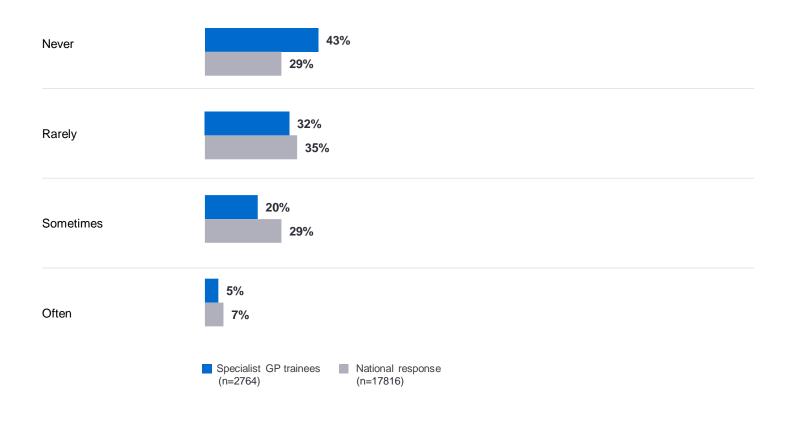

#### OVERALL, HOW WOULD YOU RATE THE QUALITY OF THE TEACHING SESSIONS?

## TRAINING AND OTHER JOB RESPONSIBILITIES

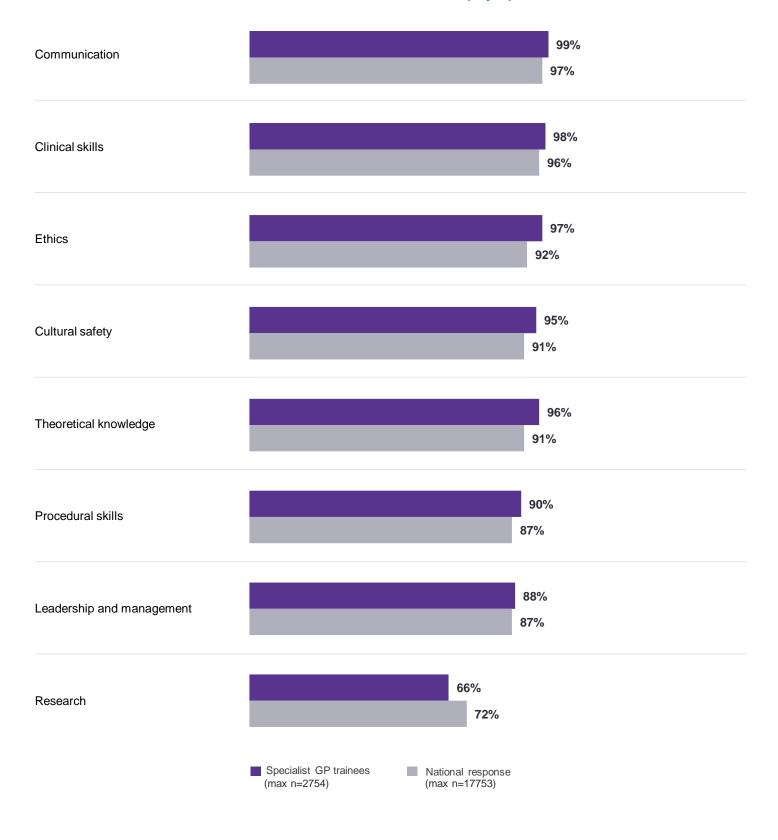

How regularly job responsibilities are preventing doctors in training from meeting training requirements

Base: Total sample

Q36. Which of the following statements best describes the interaction between your training requirements and the other responsibilities of your job?

# DO YOU HAVE SUFFICIENT OPPORTUNITIES TO DEVELOP YOUR? (% yes)

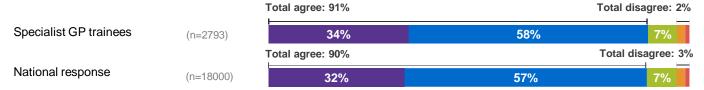

Base: Q35.

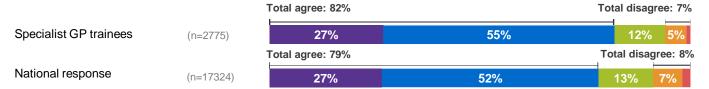

Total sample excluding not applicable In your setting, do you have sufficient opportunities to develop your?

#### **DEVELOPMENT OF CLINICAL AND PRACTICAL SKILLS**

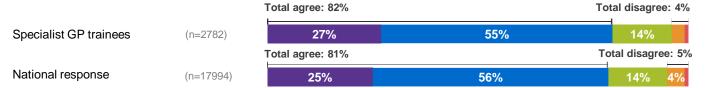

# There is a range of opportunities to develop my clinical skills

#### There is a range of opportunities to develop my procedural skills

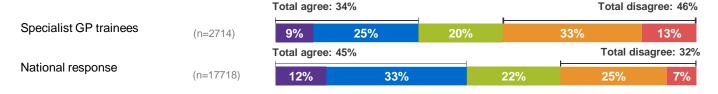

# There is a range of opportunities to develop my non-clinical skills

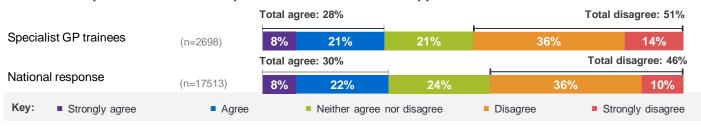

#### I can access the opportunities available to me

# I have to compete with other doctors for access to opportunities

#### I have to compete with other health professionals for access to opportunities

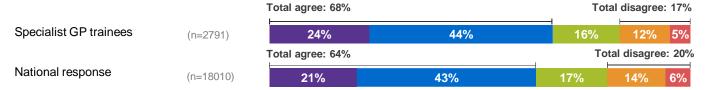

Base: Total sample

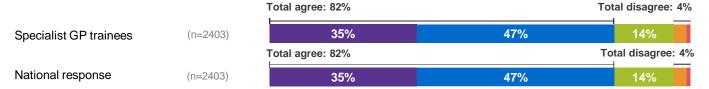

Q33. Thinking about the development of your skills, to what extent do you agree or disagree with the following statements?

#### ACCESS TO TEACHING AND RESEARCH

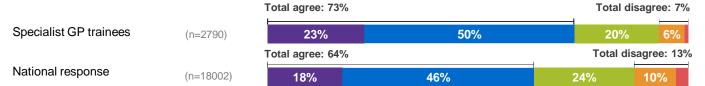

# I have access to protected study time/leave

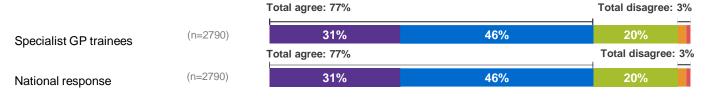

#### I am able to attend RTO education events<sup>^</sup>

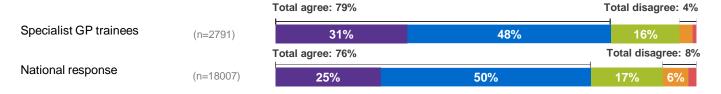

#### I am able to attend conferences, courses and/or external education events

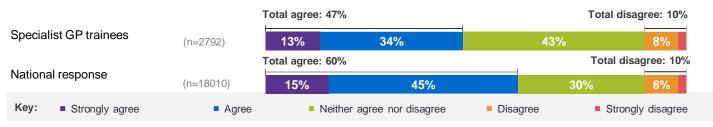

# My GP supervisor supports me to attend formal and informal teaching sessions^

## My employer supports me to attend formal and informal teaching sessions

## I am able participate in research activities

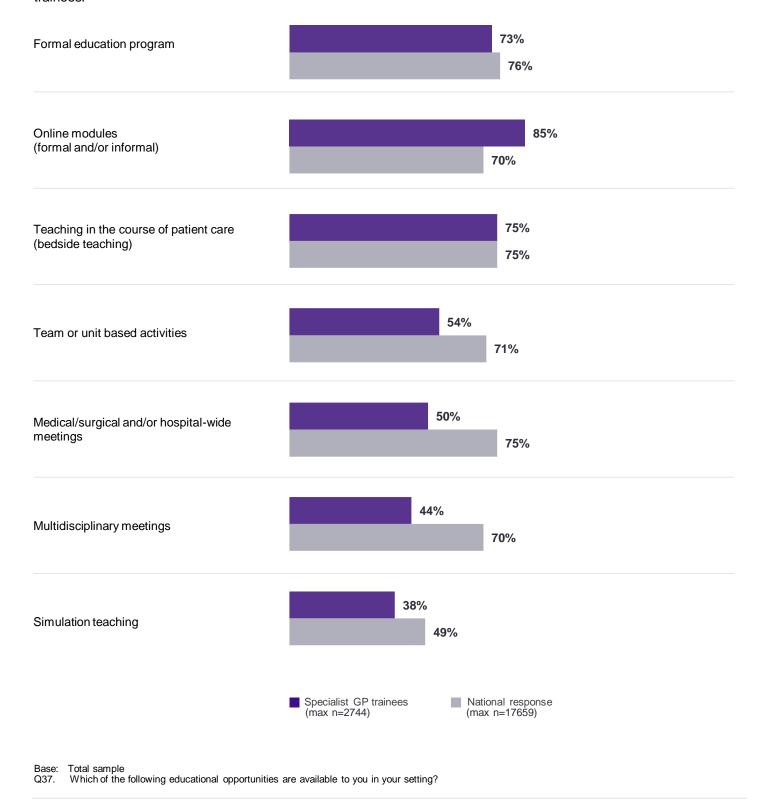

Base: Total sample,

^Note: These questions were only asked of Specialist GP trainees, as such, data is filtered to Specialist GP trainees

Q34. Thinking about access to leaching and research in your current setting, to what extent do you agree or disagree with the following statements?

# WHICH OF THE FOLLOWING EDUCATIONAL OPPORTUNITIES ARE AVAILABLE TO YOU IN YOUR SETTING? (% yes)

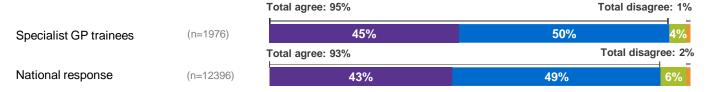

Specialist GP trainees were asked to select which educational opportunities were available to them in their current setting. Online modules (formal and/or informal) (85%), teaching in the course of patient care (bedside teaching) (75%) and formal education program (73%) were reported as the educational opportunities most available to specialist GP trainees.

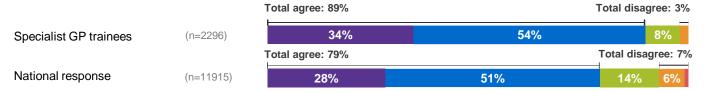

#### THE FOLLOWING EDUCATIONAL ACTIVITIES HAVE BEEN USEFUL IN YOUR DEVELOPMENT AS A DOCTOR

Specialist GP trainees who had reported access to a range of educational activities were then asked their level of agreement on whether the educational activity had been useful in their development as a doctor. Of the educational activities available, teaching in the course of patient care (bedside teaching) (96%), formal education program (95%) and simulation teaching (94%) were rated the most useful.

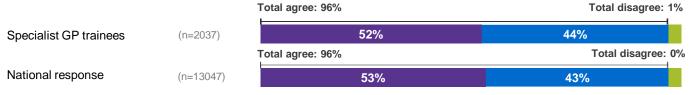

# Formal education program

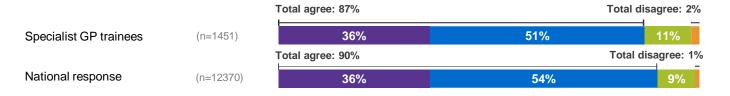

# Online modules (formal and/or informal)

# Teaching in the course of patient care (bedside teaching)

# Team or unit based activities

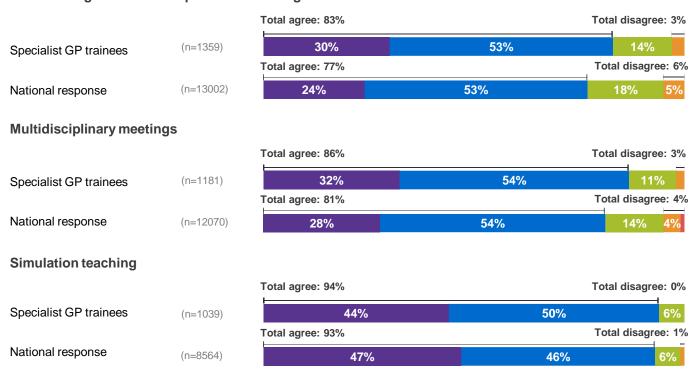

Base: Where educational opportunity is available

8. To what extent do you agree or disagree that the following educational activities have been useful in your development as a doctor?

# THE FOLLOWING EDUCATIONAL ACTIVITIES HAVE BEEN USEFUL IN YOUR DEVELOPMENT AS A DOCTOR (continued)

## Medical/surgical and/or hospital-wide meetings

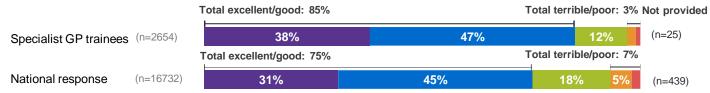

Base: Where educational opportunity is available

8. To what extent do you agree or disagree that the following educational activities have been useful in your development as a doctor?

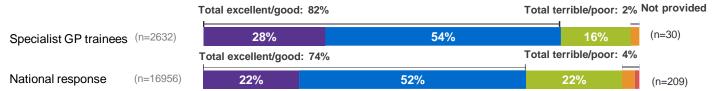

# **Facilities**

#### HOW WOULD YOU RATE THE QUALITY OF THE FOLLOWING IN YOUR SETTING?

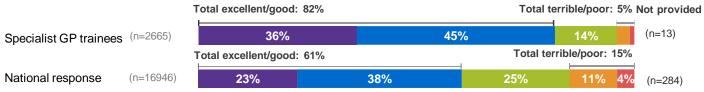

# Reliable internet for training purposes

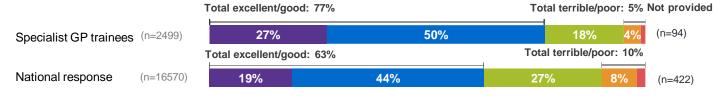

#### **Educational resources**

# Working space, such as a desk and computer

## **Teaching spaces**

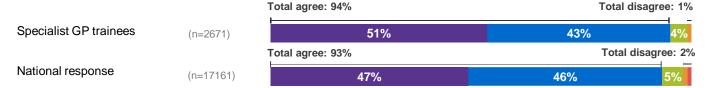

Base: Total sample excluding not provided (shown separately)

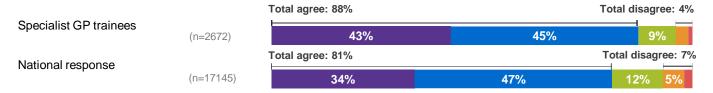

Q40. How would you rate the quality of the following in your setting?

#### **CULTURE WITHIN THE TRAINEE'S SETTING**

# Most senior medical staff are supportive

# My workplace supports staff wellbeing

# In practice, my workplace supports me to achieve a good work/life balance

## I have a good work/life balance

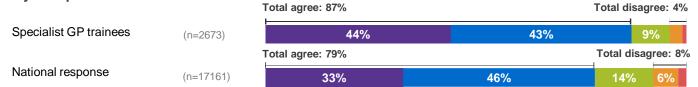

Base: Total sample

Q41. Thinking about the workplace environment and culture in your setting, to what extent do you agree or disagree with the following statements?

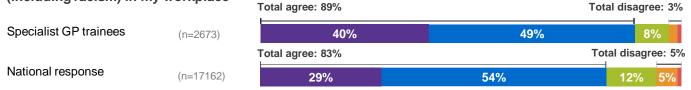

#### **CULTURE WITHIN THE TRAINEE'S SETTING (continued)**

# Bullying, harassment and discrimination (including racism) by anyone is not tolerated at

my workplace

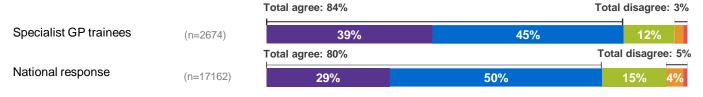

# I know how to raise concerns/issues about bullying, harassment and discrimination (including racism) in my workplace

# I am confident that I could raise concerns/issues about bullying, harassment and discrimination

# I could access support from my workplace if I experienced stress or a traumatic event

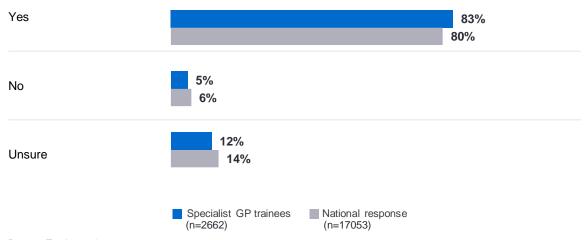

Base: Total sampl

Q41. Thinking about the workplace environment and culture in your setting, to what extent do you agree or disagree with the following statements?

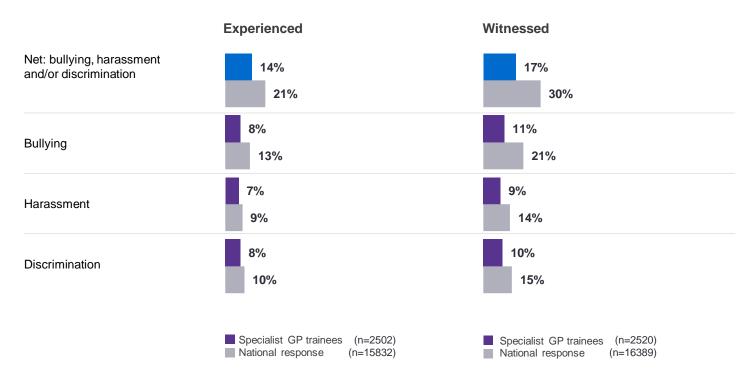

# IF YOU NEEDED SUPPORT, DO YOU KNOW HOW TO ACCESS SUPPORT FOR YOUR HEALTH (INCLUDING FOR STRESS AND OTHER PSYCHOLOGICAL DISTRESS)?

Base: Total sample

Q43. If you needed support, do you know how to access support for your health (including for stress and other psychological distress)?

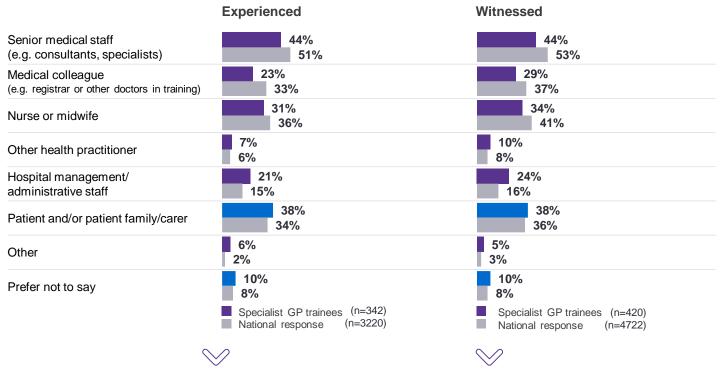

# IN THE PAST 12 MONTHS, HAVE YOU... (% yes)

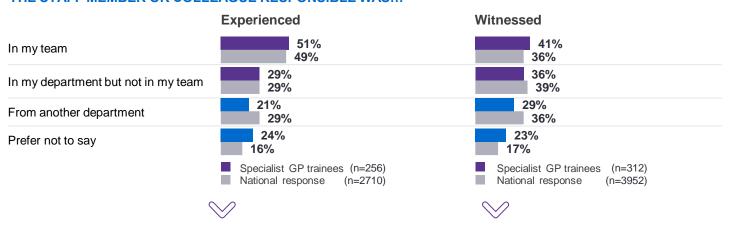

Base: Total sample

Q42a. Thinking about your workplace, have you experienced and/or witnessed any of the following in the past 12 months?

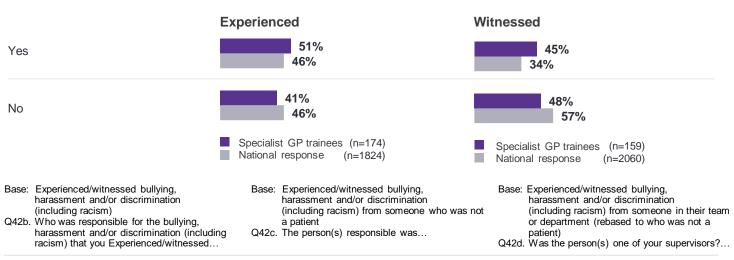

#### WHO WAS RESPONSIBLE...

## THE STAFF MEMBER OR COLLEAGUE RESPONSIBLE WAS...

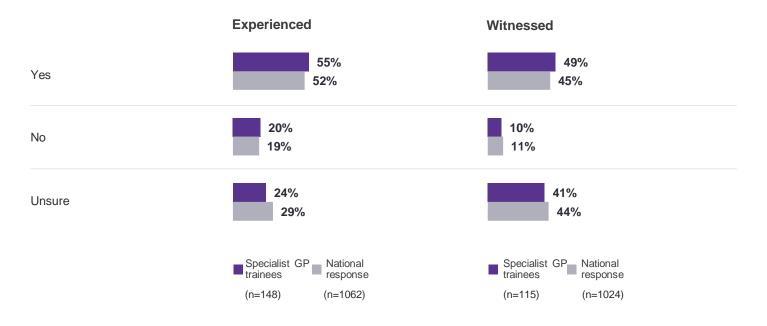

#### THE STAFF MEMBER OR COLLEAGUE FROM MY TEAM OR DEPARTMENT WAS MY SUPERVISOR...

### **HAVE YOU REPORTED IT...**

## HAS THE REPORT BEEN FOLLOWED UP...

Base: Experienced bullying, harassment and/or discrimination (including racism)

Q42e. Have you reported it?

Base: Reported bullying, harassment and/or discrimination (including racism)

### HOW OFTEN DO THE FOLLOWING ADVERSELY AFFECT YOUR WELLBEING IN YOUR SETTING?

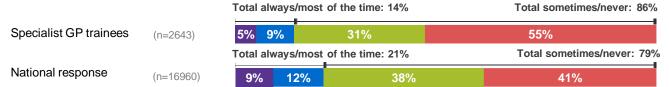

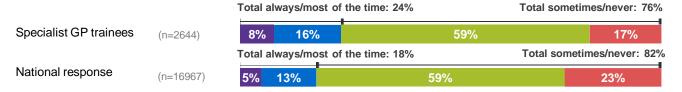

### Having to work paid overtime

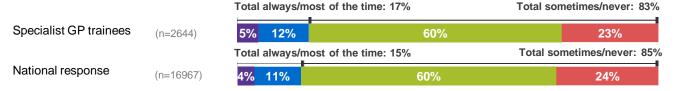

## Having to work unpaid overtime

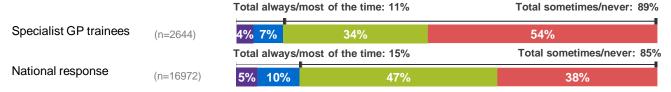

## Dealing with patient expectations

### Dealing with patients' families

## **Expectations of supervisors**

Total sample

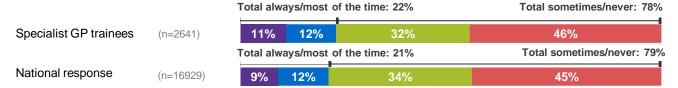

How often do the following adversely affect your wellbeing in your setting? Q44.

## HOW OFTEN DO THE FOLLOWING ADVERSELY AFFECT YOUR WELLBEING IN YOUR SETTING? (continued)

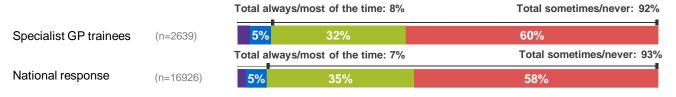

### Having to relocate for work

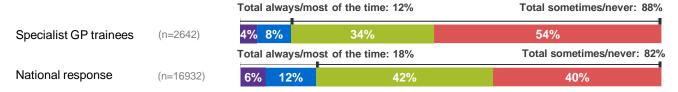

## Being expected to do work that I don't feel confident doing

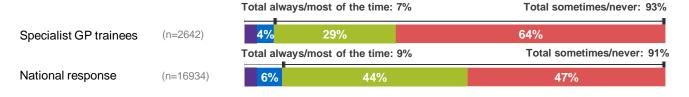

### Limited access to senior clinicians

### Lack of appreciation

### Workplace conflict

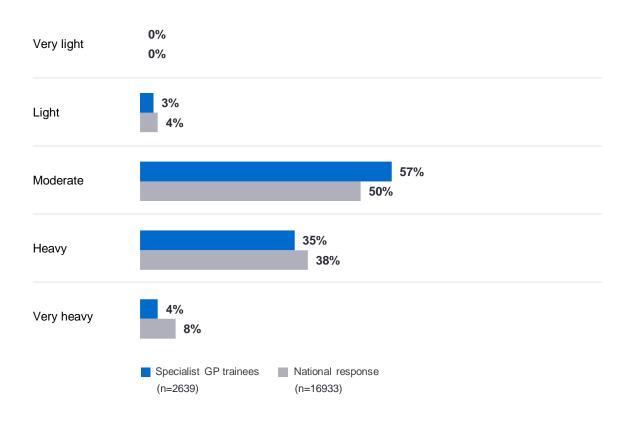

Base: Total sample

Q44. How often do the following adversely affect your wellbeing in your setting?

### HOW WOULD YOU RATE YOUR WORKLOAD IN YOUR SETTING?

Base: Total sample

Q45. How would you rate your workload in your setting?

### ON AVERAGE IN THE PAST MONTH, HOW MANY HOURS PER WEEK HAVE YOU WORKED?

On average, specialist GP trainees work 38.2 hours a week, compared to 45.6 hours a week for the national average.

For specialist GP trainees, 36% are working 40 hours a week or more, compared to the national response of 66%.

On average, specialist GP trainees worked...

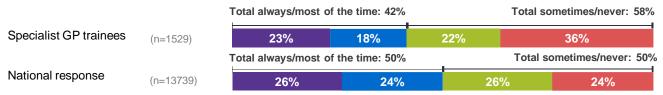

On average, doctors in training nationally worked...

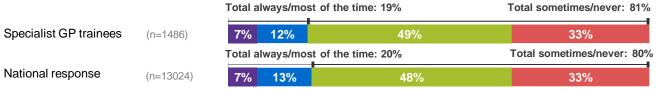

Base: Total sample (National: 2020 n=16889; Specialist GP trainees: 2020 n=2635) Q46. On average in the past month, how many hours per week have you worked?

## FOR ANY UNROSTERED OVERTIME YOU HAVE COMPLETED IN THE PAST, HOW OFTEN DID?

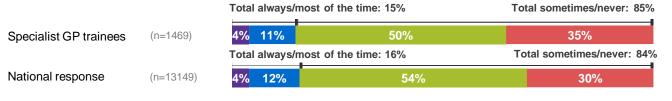

### You get paid for the unrostered overtime

# Working unrostered overtime have a negative impact on your training

### Working unrostered overtime provide you with more training opportunities

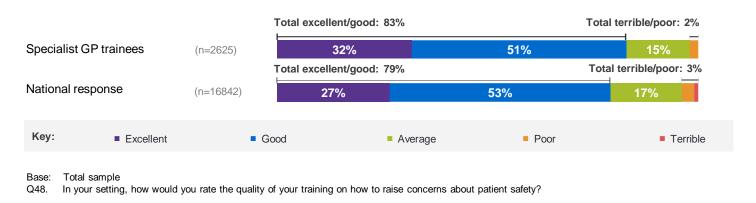

Base: Total sample

Q47. For any unrostered overtime you have completed in the past, how often did?

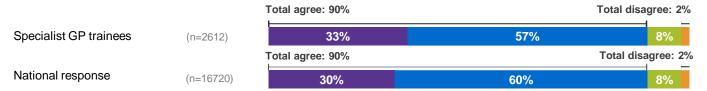

# **Patient safety**

# HOW WOULD YOU RATE THE QUALITY OF YOUR TRAINING ON HOW TO RAISE CONCERNS ABOUT PATIENT SAFETY?

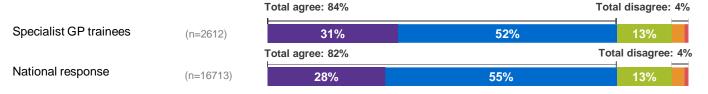

### PATIENT CARE AND SAFETY IN THE WORKPLACE

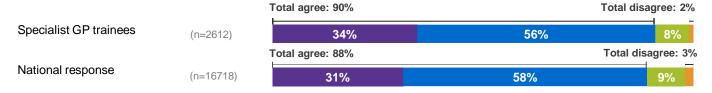

## I know how to report concerns about patient care and safety

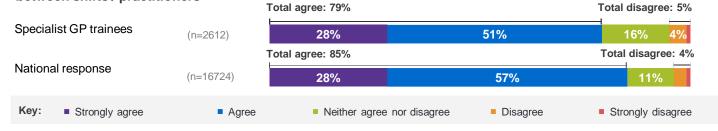

# There is a culture of proactively dealing with concerns about patient care and safety

## I am confident to raise concerns about patient care and safety

# There are processes in place at my workplace to support the safe handover of patients between shifts / practitioners

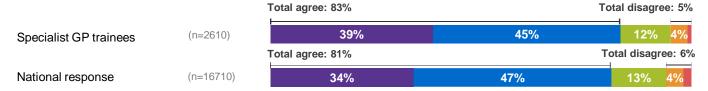

Base: Total sample

Q49. Thinking about patient care and safety in your setting, to what extent do you agree or disagree with the following statements?

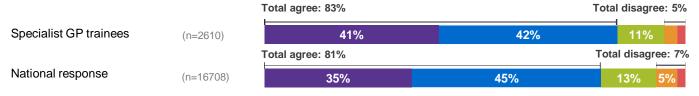

# **Overall** satisfaction

### **RECOMMEND TRAINING**

# I would recommend my current training position to other doctors

## I would recommend my current workplace as a place to train

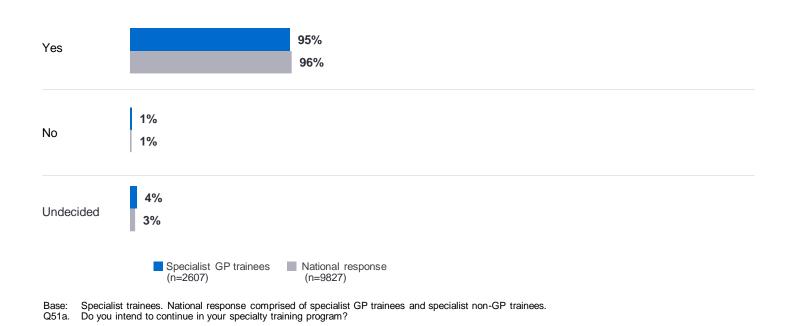

Base: Total sample

Q50. Thinking about your setting, to what extent do you agree or disagree with the following statements?

# **Future career intentions**

#### CONTINUATION OF SPECIALITY TRAINING PROGRAM

Overall, 95% of specialist GP trainees intend to continue with their specialty.

# TRAINING PROGRAM COMPLETION

I am concerned I will not successfully complete my training program to attain Fellowship

I am concerned about whether I will be able to secure employment on completion of training

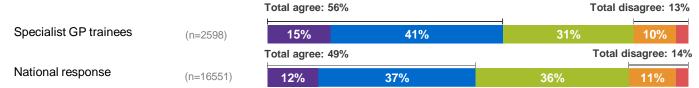

Base: Total sample

Q54. Thinking about your future career, to what extent do you agree or disagree with the following statements?

# **Future career intentions**

#### **CAREER INTERESTS**

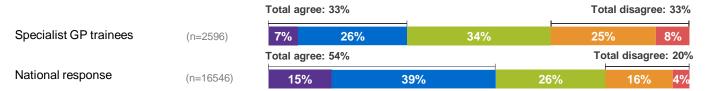

## I have an interest in Aboriginal and Torres Strait Islander health/healthcare

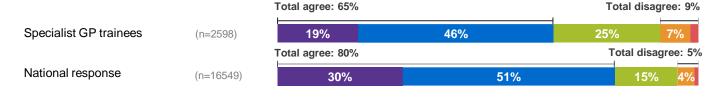

## I am interested in rural practice

## I am interested in getting involved in medical research

### I am interested in getting involved in medical teaching

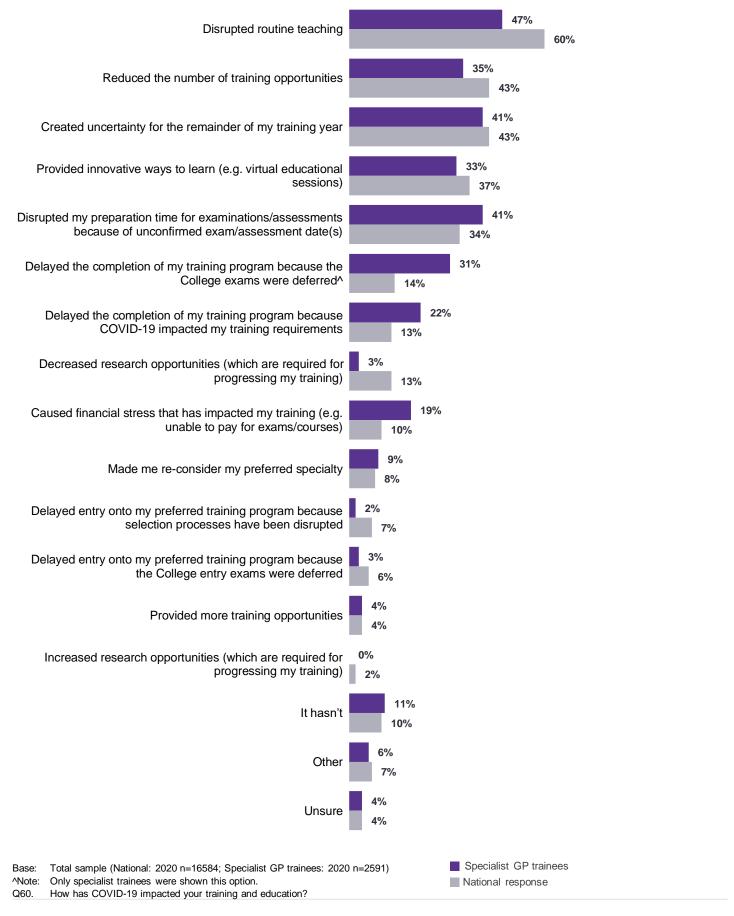

Base: Total sample

Q54. Thinking about your future career, to what extent do you agree or disagree with the following statements?

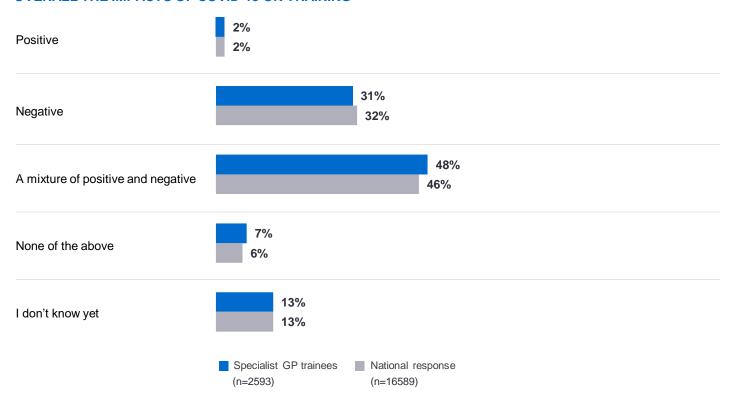

# **Impacts of COVID-19**

### **HOW COVID-19 IMPACTED TRAINING AND EDUCATION**

# **Impacts of COVID-19**

## **OVERALL THE IMPACTS OF COVID-19 ON TRAINING**

Base: Total sample

Q61. Upon reflection, overall the impacts of COVID-19 on my training have been...
